

## Description

The ICS558-01 accepts a high speed input of either PECL or CMOS, integrates a divider of 1, 2, 3, or 4, and provides four CMOS low skew outputs. The chip also has output enables so that one, three, or all four outputs can be tri-stated.

The ICS558-01 is a member of the IDT Clock Blocks™ family of clock generation, synchronization, and distribution devices.

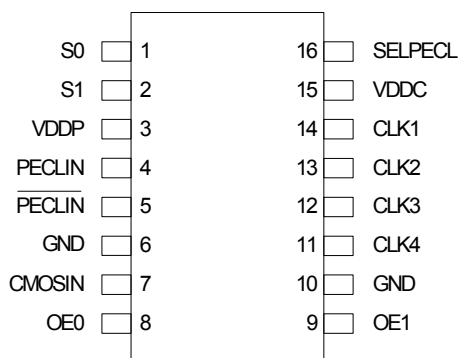

## Features

- 16-pin TSSOP package
- Pb (lead) free package
- Selectable PECL or CMOS inputs
- Operates up to 250 MHz
- Works as a voltage translator
- Four low skew (<250 ps) outputs
- Selectable internal divider
- Operating input voltages of 3.3 V or 5.0 V
- Operating output voltages of 2.5 V, 3.3 V or 5.0 V
- Ideal for IA64 designs

## Block Diagram

## Pin Assignment

16-pin 173 Mil (0.65mm) TSSOP

## Input Clock Selection

SELPECL	Input
0	CMOSIN
1	PECLIN

## Tri-State Table

OE1	OE0	CLK 1	CLK 2, 3, 4
0	0	Tri-state	Tri-state
0	1	Clock ON	Tri-state
1	0	Tri-state	Clock ON
1	1	Clock ON	Clock ON

## Output Divide Selection

S1	S0	Output Divide
0	0	/1
0	1	/2
1	0	/3
1	1	/4

## Pin Descriptions

Pin Number	Pin Name	Pin Type	Pin Description
1	S0	Input	Select 0 for output divider. See table above. Internal pull-up to VDDP.
2	S1	Input	Select 1 for output divider. See table above. Internal pull-up to VDDP.
3	VDDP	Power	Connect to +3.3 V or +5 V. Decouple to pin 6.
4	PECLIN	Clock Input	PECL input. Connect to ground if not used.
5	$\overline{\text{PECLIN}}$	Clock Input	Complimentary PECL input. Connect to ground if not used.
6	GND	Power	Connect to ground.
7	CMOSIN	Clock Input	CMOS input. Connect to ground if not used.
8	OE0	Input	Output Enable 0. See table above. Internal pull-up to VDDP.
9	OE1	Input	Output Enable 1. See table above. Internal pull-up to VDDP.
10	GND	Power	Connect to ground.
11	CLK4	Output	Low skew clock output.
12	CLK3	Output	Low skew clock output.
13	CLK2	Output	Low skew clock output.
14	CLK1	Output	Low skew clock output.
15	VDDC	Power	Connect to +2.5 V, +3.3 V, or +5 V. Decouple to pin 10.
16	SELPECL	Input	Selects PECL or CMOS input. See table above. Internal pull-up to VDDP.

## External Components

The ICS558-01 requires two 0.01  $\mu\text{F}$  capacitors between VDDP and GND, and VDDC and GND—one on each side of the chip. These must be close to the chip to minimize lead inductance. Series termination resistors of 33 $\Omega$  can be used on the outputs (these also must be close to the chip).

## Absolute Maximum Ratings

Stresses above the ratings listed below can cause permanent damage to the ICS558-01. These ratings, which are standard values for IDT commercially rated parts, are stress ratings only. Functional operation of the device at these or any other conditions above those indicated in the operational sections of the specifications is not implied. Exposure to absolute maximum rating conditions for extended periods can affect product reliability. Electrical parameters are guaranteed only over the recommended operating temperature range.

Item	Rating
Supply Voltage; VDDP, VDDC (referenced to ground)	7.0 V
Inputs and Clock Outputs (referenced to ground)	-0.5 V to VDD+0.5 V
Ambient Operating Temperature	0 to +70 °C
Storage Temperature	-65 to +150 °C
Soldering Temperature (maximum of 10 seconds)	260 °C

## DC Electrical Characteristics

VDDP = VDDC = 3.3V (unless stated otherwise), Ambient temperature 0 to +70 °C

Parameter	Symbol	Conditions	Min.	Typ.	Max.	Units
Operating Voltage, VDDP		VDDP $\geq$ VDDC	3.0		5.5	V
Operating Voltage, VDDC		VDDP $\geq$ VDDC	2.375		VDDP	V
Input High Voltage, CMOSIN	V <sub>IH</sub>		(VDDP/2)+ 1			V
Input Low Voltage, CMOSIN	V <sub>IL</sub>				(VDDP/2)- 1	V
Input High Voltage	V <sub>IH</sub>	non-clock pins	VDDP-0.5		VDDP	V
Input Low Voltage	V <sub>IL</sub>	non-clock pins			0.5	V
Common Mode Range, PECLIN		VDDP=5 V	VDDP-3.7		VDDP-0.6	V
Common Mode Range, PECLIN		VDDP=3.3 V	VDDP-2.0		VDDP-0.6	V
Peak-to-Peak Input Voltage, PECLIN			0.3		1.0	V
Output High Voltage	V <sub>OH</sub>	VDDC = 5 V, I <sub>OH</sub> = -24 mA	VDDC-0.4			V
Output Low Voltage	V <sub>OL</sub>	VDDC = 5 V, I <sub>OL</sub> = 24 mA			0.4	V
Output High Voltage	V <sub>OH</sub>	VDDC = 3.3 V, I <sub>OH</sub> = -18 mA	VDDC-0.4			V
Output Low Voltage	V <sub>OL</sub>	VDDC = 3.3 V, I <sub>OL</sub> = 18 mA			0.4	V

Parameter	Symbol	Conditions	Min.	Typ.	Max.	Units
Output High Voltage	$V_{OH}$	VDDC = 2.5 V, $I_{OH} = -8$ mA	VDDC-0.4			V
Output Low Voltage	$V_{OL}$	VDDC = 2.5 V $I_{OL} = 8$ mA			0.4	V
Operating Supply Current	IDDP	No load, 100 MHz input		22		mA
Operating Supply Current	IDDC	No load, 100 MHz input		18		mA
Short Circuit Current				+70		mA
On-chip pull-up resistor	$R_{PU}$			250		k $\Omega$
Input Capacitance	$C_{IN}$			4		pF

## AC Electrical Characteristics

VDDP = VDDC = 3.3 V (unless stated otherwise), Ambient Temperature 0 to +70 °C

Parameter	Symbol	Conditions	Min.	Typ.	Max.	Units
Input Frequency			0		250	MHz
Output Rise Time	$t_{OR}$				800	ps
Output Fall Time	$t_{OF}$				750	ps
Skew, between any output clocks		(Assumes identically loaded outputs with identical rise times, measured at VDDC/2)		0	250	ps
Propagation Delay		/1		5.0		ns
		/2		6.0		ns
		/3				ns
		/4		7.0		ns
Output Clock Duty Cycle for /2 and /4			45	50	55	%
Output Clock Duty Cycle for /1 and /3			45	50	55	%

## Thermal Characteristics (16-pin TSSOP)

Parameter	Symbol	Conditions	Min.	Typ.	Max.	Units
Thermal Resistance Junction to Ambient	$\theta_{JA}$	Still air		78		°C/W
	$\theta_{JA}$	1 m/s air flow		70		°C/W
	$\theta_{JA}$	3 m/s air flow		68		°C/W
Thermal Resistance Junction to Case	$\theta_{JC}$			37		°C/W

## Package Outline and Package Dimensions (16-pin TSSOP, 4.40 mm Body, 0.65 mm Pitch)

Package dimensions are kept current with JEDEC Publication No. 95, MO-153

## Ordering Information

Part / Order Number	Marking	Shipping Packaging	Package	Temperature
558G-01LF	558G-01LF	Tubes	16-pin TSSOP	0 to +70° C
558G-01LFT	558G-01LF	Tape and Reel	16-pin TSSOP	0 to +70° C

"LF" suffix to the part number are the Pb-Free configuration and are RoHS compliant.

While the information presented herein has been checked for both accuracy and reliability, Integrated Device Technology (IDT) assumes no responsibility for either its use or for the infringement of any patents or other rights of third parties, which would result from its use. No other circuits, patents, or licenses are implied. This product is intended for use in normal commercial applications. Any other applications such as those requiring extended temperature range, high reliability, or other extraordinary environmental requirements are not recommended without additional processing by IDT. IDT reserves the right to change any circuitry or specifications without notice. IDT does not authorize or warrant any IDT product for use in life support devices or critical medical instruments.

## Notice

1. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation or any other use of the circuits, software, and information in the design of your product or system. Renesas Electronics disclaims any and all liability for any losses and damages incurred by you or third parties arising from the use of these circuits, software, or information.
2. Renesas Electronics hereby expressly disclaims any warranties against and liability for infringement or any other claims involving patents, copyrights, or other intellectual property rights of third parties, by or arising from the use of Renesas Electronics products or technical information described in this document, including but not limited to, the product data, drawings, charts, programs, algorithms, and application examples.
3. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
4. You shall not alter, modify, copy, or reverse engineer any Renesas Electronics product, whether in whole or in part. Renesas Electronics disclaims any and all liability for any losses or damages incurred by you or third parties arising from such alteration, modification, copying or reverse engineering.
5. Renesas Electronics products are classified according to the following two quality grades: "Standard" and "High Quality". The intended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below.
  - "Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; industrial robots; etc.
  - "High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control (traffic lights); large-scale communication equipment; key financial terminal systems; safety control equipment; etc.Unless expressly designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not intended or authorized for use in products or systems that may pose a direct threat to human life or bodily injury (artificial life support devices or systems; surgical implantations; etc.), or may cause serious property damage (space system; undersea repeaters; nuclear power control systems; aircraft control systems; key plant systems; military equipment; etc.). Renesas Electronics disclaims any and all liability for any damages or losses incurred by you or any third parties arising from the use of any Renesas Electronics product that is inconsistent with any Renesas Electronics data sheet, user's manual or other Renesas Electronics document.
6. When using Renesas Electronics products, refer to the latest product information (data sheets, user's manuals, application notes, "General Notes for Handling and Using Semiconductor Devices" in the reliability handbook, etc.), and ensure that usage conditions are within the ranges specified by Renesas Electronics with respect to maximum ratings, operating power supply voltage range, heat dissipation characteristics, installation, etc. Renesas Electronics disclaims any and all liability for any malfunctions, failure or accident arising out of the use of Renesas Electronics products outside of such specified ranges.
7. Although Renesas Electronics endeavors to improve the quality and reliability of Renesas Electronics products, semiconductor products have specific characteristics, such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Unless designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not subject to radiation resistance design. You are responsible for implementing safety measures to guard against the possibility of bodily injury, injury or damage caused by fire, and/or danger to the public in the event of a failure or malfunction of Renesas Electronics products, such as safety design for hardware and software, including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult and impractical, you are responsible for evaluating the safety of the final products or systems manufactured by you.
8. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. You are responsible for carefully and sufficiently investigating applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive, and using Renesas Electronics products in compliance with all these applicable laws and regulations. Renesas Electronics disclaims any and all liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
9. Renesas Electronics products and technologies shall not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations. You shall comply with any applicable export control laws and regulations promulgated and administered by the governments of any countries asserting jurisdiction over the parties or transactions.
10. It is the responsibility of the buyer or distributor of Renesas Electronics products, or any other party who distributes, disposes of, or otherwise sells or transfers the product to a third party, to notify such third party in advance of the contents and conditions set forth in this document.
11. This document shall not be reprinted, reproduced or duplicated in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products.

(Note1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its directly or indirectly controlled subsidiaries.

(Note2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.
