

Description

The 5P8390x is a high performance, 1-to-4/6/8 crystal input to LVCMOS fanout buffer with output enable pins. This device accepts a fundamental mode crystal from 10MHz to 40MHz and outputs LVCMOS clocks with best-in-class phase noise performance.

The 5P8390x family (5P83904, 5P83905, and 5P83908) features a synchronous glitch-free Output Enable function to eliminate any intermediate incorrect output clock cycles when enabling or disabling outputs. It comes in standard TSSOP packages or small QFN packages and can operate from 1.8V to 3.3V supplies.

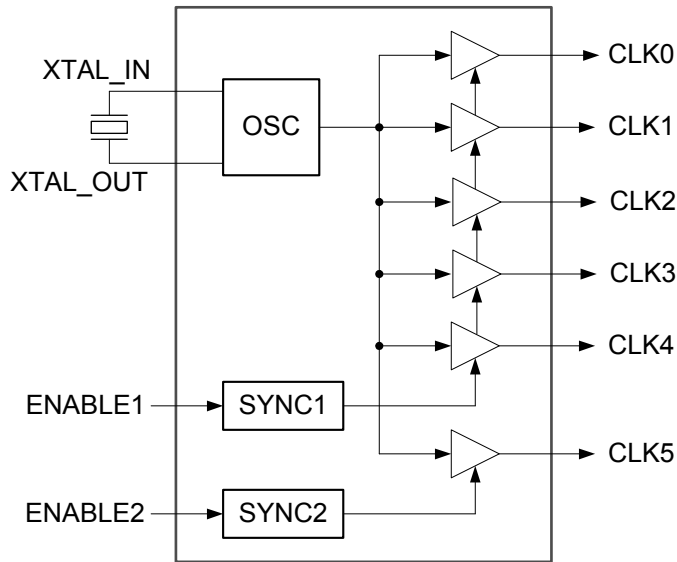

Features

- 4/6/8 copies of LVCMOS output clocks with best-in-class phase noise performance
- Phase Noise:
 - Offset Noise Power (3.3V)
 - 100Hz: -131 dBc/Hz
 - 1KHz: -145 dBc/Hz
 - 10KHz: -154 dBc/Hz
 - 100KHz: -161 dBc/Hz
- Operating power supply modes:
 - Full 3.3V, 2.5V, 1.8V
 - Mixed 3.3V core/2.5V output operating supply
 - Mixed 3.3V core/1.8V output operating supply
 - Mixed 2.5V core/1.8V output operating supply
- Crystal Oscillator Interface
- Synchronous Output Enable
- Packaged in 16-, 20-pin TSSOP and QFN packages (Pb free, fully RoHS compliant)
- Extended (-40°C to +105°C) temperature range

Absolute Maximum Ratings

Stresses above the ratings listed below can cause permanent damage to the 5P8390x. These ratings, which are standard values for IDT commercially rated parts, are stress ratings only. Functional operation of the device at these or any other conditions above those indicated in the operational sections of the specifications is not implied. Exposure to absolute maximum rating conditions for extended periods can affect product reliability. Electrical parameters are guaranteed only over the recommended operating temperature range.

Item	Rating
Supply Voltage, VDD	3.465V
Output Enable and All Outputs	-0.4 V to VDD+0.5 V
CLKIN	-0.4 V to 3.465V
Ambient Operating Temperature (extended)	-40 to +105°C
Storage Temperature	-65 to +150°C
Junction Temperature	125°C
Soldering Temperature	260°C

Recommended Operation Conditions

Phase Noise Plots

The phase noise plots above show the low Additive Jitter of the 5P8390x high-performance buffer. With an integration range of 12kHz to 20MHz, the reference input has about 58.9fs of RMS phase jitter while the output of 5P8390x has about 70.9fs of RMS phase jitter. This results in a low Additive Phase Jitter of only 39fs.

16-pin QFN

20-pin QFN

Notes:

1. "***" is the lot sequence.
2. "XXX" denotes the last three characters of the Asm lot (20-pin QFN only).
3. "YYWW", "YWW", "YW", or "Y" is the last digit(s) of the year and week that the part was assembled.
4. "\$" denotes the mark code.
5. "LOT" denotes lot number.
6. "G" after the two-letter package code denotes RoHS compliant package.
7. "I" denotes extended temperature range device.
8. Bottom marking: country of origin (TSSOP only).

TITLE PGG/PGG PACKAGE OUTLINE (PG OR PA TOPMARK CODE) 4.4 mm BODY WIDTH TSSOP .65 mm PITCH	
SIZE	DRAWING No.
C	PSC-4056
REV	07
DO NOT SCALE DRAWING	
SHEET 3 OF 3	

Ordering Information

Part / Order Number	Marking	Shipping Packaging	Package	Temperature
5P83904PGGK	see page 9	Tubes	16-pin TSSOP	-40° to +105°C
5P83904PGGK8		Tape and Reel	16-pin TSSOP	-40° to +105°C
5P83904CMGK		Cut Tape	16-pin QFN	-40° to +105°C
5P83904CMGK8		Tape and Reel	16-pin QFN	-40° to +105°C
5P83905PGGK		Tubes	16-pin TSSOP	-40° to +105°C
5P83905PGGK8		Tape and Reel	16-pin TSSOP	-40° to +105°C
5P83905CMGK		Cut Tape	16-pin QFN	-40° to +105°C
5P83905CMGK8		Tape and Reel	16-pin QFN	-40° to +105°C
5P83908PGGK		Tubes	20-pin TSSOP	-40° to +105°C
5P83908PGGK8		Tape and Reel	20-pin TSSOP	-40° to +105°C
5P83908NDGK		Tubes	20-pin QFN	-40° to +105°C
5P83908NDGK8		Tape and Reel	20-pin QFN	-40° to +105°C

“G” after the two-letter package code denotes Pb-Free configuration, RoHS compliant.

“K” denotes extended temperature range.

Revision History

Rev.	Date	Originator	Description of Change
A	07/11/16	H.G.	Release to final.
B	10/05/16	Y.G.	1. Update "Propagation Delay" typical values per latest characterization data. 2. Update "Output Rise/Fall" maximum values per latest characterization data.

Notice

1. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation or any other use of the circuits, software, and information in the design of your product or system. Renesas Electronics disclaims any and all liability for any losses and damages incurred by you or third parties arising from the use of these circuits, software, or information.
2. Renesas Electronics hereby expressly disclaims any warranties against and liability for infringement or any other claims involving patents, copyrights, or other intellectual property rights of third parties, by or arising from the use of Renesas Electronics products or technical information described in this document, including but not limited to, the product data, drawings, charts, programs, algorithms, and application examples.
3. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
4. You shall not alter, modify, copy, or reverse engineer any Renesas Electronics product, whether in whole or in part. Renesas Electronics disclaims any and all liability for any losses or damages incurred by you or third parties arising from such alteration, modification, copying or reverse engineering.
5. Renesas Electronics products are classified according to the following two quality grades: "Standard" and "High Quality". The intended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below.
 - "Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; industrial robots; etc.
 - "High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control (traffic lights); large-scale communication equipment; key financial terminal systems; safety control equipment; etc.Unless expressly designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not intended or authorized for use in products or systems that may pose a direct threat to human life or bodily injury (artificial life support devices or systems; surgical implantations; etc.), or may cause serious property damage (space system; undersea repeaters; nuclear power control systems; aircraft control systems; key plant systems; military equipment; etc.). Renesas Electronics disclaims any and all liability for any damages or losses incurred by you or any third parties arising from the use of any Renesas Electronics product that is inconsistent with any Renesas Electronics data sheet, user's manual or other Renesas Electronics document.
6. When using Renesas Electronics products, refer to the latest product information (data sheets, user's manuals, application notes, "General Notes for Handling and Using Semiconductor Devices" in the reliability handbook, etc.), and ensure that usage conditions are within the ranges specified by Renesas Electronics with respect to maximum ratings, operating power supply voltage range, heat dissipation characteristics, installation, etc. Renesas Electronics disclaims any and all liability for any malfunctions, failure or accident arising out of the use of Renesas Electronics products outside of such specified ranges.
7. Although Renesas Electronics endeavors to improve the quality and reliability of Renesas Electronics products, semiconductor products have specific characteristics, such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Unless designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not subject to radiation resistance design. You are responsible for implementing safety measures to guard against the possibility of bodily injury, injury or damage caused by fire, and/or danger to the public in the event of a failure or malfunction of Renesas Electronics products, such as safety design for hardware and software, including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult and impractical, you are responsible for evaluating the safety of the final products or systems manufactured by you.
8. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. You are responsible for carefully and sufficiently investigating applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive, and using Renesas Electronics products in compliance with all these applicable laws and regulations. Renesas Electronics disclaims any and all liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
9. Renesas Electronics products and technologies shall not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations. You shall comply with any applicable export control laws and regulations promulgated and administered by the governments of any countries asserting jurisdiction over the parties or transactions.
10. It is the responsibility of the buyer or distributor of Renesas Electronics products, or any other party who distributes, disposes of, or otherwise sells or transfers the product to a third party, to notify such third party in advance of the contents and conditions set forth in this document.
11. This document shall not be reprinted, reproduced or duplicated in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products.

(Note1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its directly or indirectly controlled subsidiaries.

(Note2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.
