

GENERAL DESCRIPTION

The 83210 is a low skew, 1-to-10 HSTL Fanout Buffer. The class II HSTL outputs are balanced push-pull in design, capable of delivering 16mA into a 10pF load. This class allows both source series termination and symmetrically double parallel termination.

FEATURES

- Ten single-ended HSTL outputs
- One single-ended HSTL clock input
- Maximum input frequency: 150MHz
- Output skew: 110ps (maximum)
- Part-to-part skew: 2ns (maximum)
- 1.5V power supply
- 0°C to 85°C ambient operating temperature
- Available in lead-free (RoHS 6) package

TABLE 1. PIN DESCRIPTIONS

Number	Name	Type		Description
1, 3, 7, 12, 13, 20, 21, 28, 29	V _{DD}	Power		Power supply pins.
2, 5, 8, 9, 10, 16, 17, 24, 25, 31, 32	GND	Power		Power supply ground.
4	nOE	Input	Pulldown	Output enable/disable input pin. When LOW, outputs Qx outputs are enabled. When HIGH, Qx outputs are disabled low. LVCMOS/LVTTL interface levels.
5	IN	Input		Single-ended reference clock input. HSTL interface levels.
11, 14, 15, 18, 19, 22, 23, 26, 27, 30	Q9, Q8, Q7, Q6, Q5, Q4, Q3, Q2, Q1, Q0	Output		Single-ended HSTL clock outputs.

NOTE: *Pulldown* refers to internal input resistors. See Table 2, Pin Characteristics, for typical values.

TABLE 2. PIN CHARACTERISTICS

Symbol	Parameter	Test Conditions	Minimum	Typical	Maximum	Units
C _{IN}	Input Capacitance			4		pF
R _{PULLDOWN}	Input Pulldown Resistor			51		kΩ
C _{OUT}	Output Pin Capacitance			4.5	6	pF
R _{OUT}	Output Impedance			20		Ω

ABSOLUTE MAXIMUM RATINGS

Supply Voltage, V_{DD}	4.6V
Inputs, V_I	-0.5V to $V_{DD} + 0.5V$
Outputs, V_O	-0.5V to $V_{DD} + 0.5V$
Package Thermal Impedance, θ_{JA}	75.5°C/W (0 mps)
Storage Temperature, T_{STG}	-65°C to 150°C

NOTE: Stresses beyond those listed under Absolute Maximum Ratings may cause permanent damage to the device. These ratings are stress specifications only. Functional operation of product at these conditions or any conditions beyond those listed in the *DC Characteristics* or *AC Characteristics* is not implied. Exposure to absolute maximum rating conditions for extended periods may affect product reliability.

TABLE 3A. POWER SUPPLY DC CHARACTERISTICS, $V_{DD} = 1.5V \pm 8\%$, $T_A = 0^\circ C$ TO $85^\circ C$

Symbol	Parameter	Test Conditions	Minimum	Typical	Maximum	Units
V_{DD}	Power Supply Voltage		1.38	1.5	1.62	V
I_{DD}	Power Supply Current	Outputs Loaded @ 62.5MHz		215	250	mA
I_{DDO}	Quiescent Supply Current	$V_{IN} = 0V$, outputs disabled			1	mA

TABLE 3B. LVCMOS / LVTTTL DC CHARACTERISTICS, $V_{DD} = 1.5V \pm 8\%$, $T_A = 0^\circ C$ TO $85^\circ C$

Symbol	Parameter	Test Conditions	Minimum	Typical	Maximum	Units
V_{IH}	Input High Voltage	nOE	$0.7 \cdot V_{DD}$		$V_{DD} + 0.3$	V
V_{IL}	Input Low Voltage	nOE	-0.3		$0.3 \cdot V_{DD}$	V
I_{IH}	Input High Current	nOE			150	μA
I_{IL}	Input Low Current	nOE	-5			μA

TABLE 3C. HSTL DC CHARACTERISTICS, $V_{DD} = 1.5V \pm 8\%$, $T_A = 0^\circ C$ TO $85^\circ C$

Symbol	Parameter	Test Conditions	Minimum	Typical	Maximum	Units
V_{IH}	Input High Voltage	IN	0.85		1.8	V
V_{IL}	Input Low Voltage	IN				
V_{OH}	Output High Voltage	$I_{OH} = -16mA$	1.0		$V_{DD} + 0.3$	V
V_{OL}	Output Low Voltage	$I_{OL} = 16mA$	-0.3		0.4	V

TABLE 4. AC CHARACTERISTICS, $V_{DD} = 1.5V \pm 8\%$, $T_A = 0^{\circ}C$ TO $85^{\circ}C$

Symbol	Parameter	Test Conditions	Minimum	Typical	Maximum	Units
f_{IN}	Input Frequency				150	MHz
t_{PLH}	Propagation Delay, Low-to-High; NOTE 1		1.0		5.5	ns
t_{PHL}	Propagation Delay, High-to-Low NOTE 1		1.0		5.5	ns
tsk(o)	Output Skew; NOTE 2, 4				110	ps
tsk(pp)	Part-to-Part Skew; NOTE 3, 4				2	ns
t_{EN}	Output Enable Time				7	ns
t_{DIS}	Output Disable Time				7	ns
t_R / t_F	Output Rise/Fall Time	20% to 80%	250		1.3	ns
odc	Output Duty Cycle	$F_{out} \leq 100MHz$	48		52	%
		$F_{out} > 100MHz$	45		55	%

NOTE: Electrical parameters are guaranteed over the specified ambient operating temperature range, which is established when the device is mounted in a test socket with maintained transverse airflow greater than 500 lpm. The device will meet specifications after thermal equilibrium has been reached under these conditions.

NOTE 1: Measured from the $V_{DD}/2$ of the input to $V_{DD}/2$ of the output.

NOTE 2: Defined as skew between outputs at the same supply voltage and with equal load conditions. Measured at $V_{DD}/2$ of the output.

NOTE 3: Defined as skew between outputs on different devices operating at the same supply voltage, same temperature, same frequency and with equal load conditions at the same temperature. Using the same type of inputs on each device, the outputs are measured at $V_{DD}/2$ of the output.

NOTE 4: This parameter is defined in accordance with JEDEC Standard 65.

REVISION HISTORY SHEET				
Rev	Table	Page	Description of Change	Date
A	T3C	3	HSTL DC Characteristics Table - deleted NOTE 1, does not apply.	9/9/10
	T4	4	AC Characteristics Table - added thermal note.	
		7	Updated Package Outline.	
	T7	8	Ordering Information Table - Deleted "ICS" prefix from Part/Order Number column. Changed DT format header/footer.	
A	T7	8	Ordering Information - removed leaded devices. Updated data sheet format.	4/28/15
A	T7	8	Removed ICS from the part number where needed. Ordering Information - Deleted LF note below table. Updated Header and footer.	3/10/16

Notice

1. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation or any other use of the circuits, software, and information in the design of your product or system. Renesas Electronics disclaims any and all liability for any losses and damages incurred by you or third parties arising from the use of these circuits, software, or information.
 2. Renesas Electronics hereby expressly disclaims any warranties against and liability for infringement or any other claims involving patents, copyrights, or other intellectual property rights of third parties, by or arising from the use of Renesas Electronics products or technical information described in this document, including but not limited to, the product data, drawings, charts, programs, algorithms, and application examples.
 3. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
 4. You shall not alter, modify, copy, or reverse engineer any Renesas Electronics product, whether in whole or in part. Renesas Electronics disclaims any and all liability for any losses or damages incurred by you or third parties arising from such alteration, modification, copying or reverse engineering.
 5. Renesas Electronics products are classified according to the following two quality grades: "Standard" and "High Quality". The intended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below.
 - "Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; industrial robots; etc.
 - "High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control (traffic lights); large-scale communication equipment; key financial terminal systems; safety control equipment; etc.Unless expressly designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not intended or authorized for use in products or systems that may pose a direct threat to human life or bodily injury (artificial life support devices or systems; surgical implantations; etc.), or may cause serious property damage (space system; undersea repeaters; nuclear power control systems; aircraft control systems; key plant systems; military equipment; etc.). Renesas Electronics disclaims any and all liability for any damages or losses incurred by you or any third parties arising from the use of any Renesas Electronics product that is inconsistent with any Renesas Electronics data sheet, user's manual or other Renesas Electronics document.
 6. When using Renesas Electronics products, refer to the latest product information (data sheets, user's manuals, application notes, "General Notes for Handling and Using Semiconductor Devices" in the reliability handbook, etc.), and ensure that usage conditions are within the ranges specified by Renesas Electronics with respect to maximum ratings, operating power supply voltage range, heat dissipation characteristics, installation, etc. Renesas Electronics disclaims any and all liability for any malfunctions, failure or accident arising out of the use of Renesas Electronics products outside of such specified ranges.
 7. Although Renesas Electronics endeavors to improve the quality and reliability of Renesas Electronics products, semiconductor products have specific characteristics, such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Unless designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not subject to radiation resistance design. You are responsible for implementing safety measures to guard against the possibility of bodily injury, injury or damage caused by fire, and/or danger to the public in the event of a failure or malfunction of Renesas Electronics products, such as safety design for hardware and software, including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult and impractical, you are responsible for evaluating the safety of the final products or systems manufactured by you.
 8. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. You are responsible for carefully and sufficiently investigating applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive, and using Renesas Electronics products in compliance with all these applicable laws and regulations. Renesas Electronics disclaims any and all liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
 9. Renesas Electronics products and technologies shall not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations. You shall comply with any applicable export control laws and regulations promulgated and administered by the governments of any countries asserting jurisdiction over the parties or transactions.
 10. It is the responsibility of the buyer or distributor of Renesas Electronics products, or any other party who distributes, disposes of, or otherwise sells or transfers the product to a third party, to notify such third party in advance of the contents and conditions set forth in this document.
 11. This document shall not be reprinted, reproduced or duplicated in any form, in whole or in part, without prior written consent of Renesas Electronics.
 12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products.
- (Note1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its directly or indirectly controlled subsidiaries.
- (Note2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.
