PRODUCT/PROCESS CHANGE NOTICE (PCN)

ATTACHMENT 1 - PCN #: A1003-02R1

PCN Type: Product Top Mark

Data Sheet Change: None

Detail Of Change:

This notification is to advise our customers of a top mark format change on selective IDT products. The date code format in the top mark will be changed to "YYWW" format. Due to space constraint for small packages, prefix is eliminated from the date code. This change is implemented to standardize the top mark format for all packages (large and small).

Customer may receive shipments that are marked with new and old format during the transition period and until the existing inventories have been depleted.

Below is an example of top mark format change for part# IDT5V9885NLGI.

Old Format

Prefix before date code

New Format

No prefix before date code (YYWW format)

Assembly Lot#
for traceability

Customers may expect to receive shipments of products in new marking no sooner than 90 days from the date of this PCN notification. Shipments to customers may contain products marked with old and new format during the transition period and until the old inventories have been depleted.
