## **PRODUCT/PROCESS CHANGE NOTICE (PCN)**

### **ATTACHMENT I - PCN # : TB0910-02**

**PCN Type:** Test and Backend Site

**Data Sheet Change:** No Change

#### **Details Of Change:**

This notification is to inform our customers that IDT Penang, Malaysia Test site is being added as an alternate test and final pack location for the list of parts shown in Attachment II. These products are currently qualified to be tested and shipped from IDT Singapore. This is a test and backend location change only. Penang Test will be on the same test platform and test programs as currently used in Singapore. The final pack process is standardized between the 2 sites.

IDT Penang, Malaysia Test site has been a qualified test and final pack site for IDT products for over 20 years. As this is a test site change only (no change to test platform or test programs) this has minimal to no impact to test coverage.

This change will allow IDT the flexibility to ship from either facility and will provide increased capacity and flexibility to meet market demand.

Traceability to the test site will be maintained by lot code and shipment. Upon successful completion of the correlation plan, products tested at IDT Penang will be available to ship.
