PRODUCT/PROCESS CHANGE NOTICE (PCN)

ATTACHMENT I - PCN # : TB1910-01

PCN Type: Manufacturing Site - Alternate Test Location

Data Sheet Change: None

Detail Of Change:

This notification is to advise our customers that IDT is adding ASEK, Taiwan as an alternate facility for Test process for the selective products that are presently tested at IDT Penang, Malaysia facility.

This change will allow IDT the flexibility to ship from either facility and will provide the increased capacity, flexibility and shorter lead time to meet market demand.

There is no change in the Test processing flows. Load boards and test programs are the same at both qualified facilities. IDT has completed the electrical test correlation and based on the test results we do not anticipate any impact on device performance. The testing is fully compatible and transferrable between the test facilities with no change to the test coverage.

There is no change in the moisture sensitivity level (MSL).

If you require samples to conduct evaluations, please contact your local sales representative to acknowledge this PCN and request samples.
