MEANS OF DISTINGUISHING CHANGED DEVICES:

- Product Mark
- Back Mark
- Date Code
- Other

Traceable by Assembly lot#

DESCRIPTION AND PURPOSE OF CHANGE:

Revision 1: This revised notice is to add additional firmware updates as follows:
1. Improve the Extended Power Profile (EPP) Foreign Object Detection (FOD) to support a broader range of customer applications.
2. Enable T4 (H4) pin for End of Charge (EOC), which will allow any WPC transmitter to be placed in a low state mode (where power will not be transferred) when I2C is not available. This pin definition will be outlined in an updated datasheet.

The PCN effective date remains unchanged.

RELIABILITY/QUALIFICATION SUMMARY:

There is no change in die technology/process/datasheet.

CUSTOMER ACKNOWLEDGMENT OF RECEIPT:

IDT records indicate that you require written notification of this change. Please use the acknowledgement below or E-Mail to grant approval or request additional information. If IDT does not receive acknowledgement within 30 days of this notice it will be assumed that this change is acceptable.

IDT reserves the right to ship either version manufactured after the process change effective date until the inventory on the earlier version has been depleted.

Customer: _____________________________  Approval for shipments prior to effective date.
